

REMARKS

Claims 5-11 remain in this case, claims 1-2 being previously cancelled and claims 3-4 being cancelled by this amendment. Newly added claims 5-11 are supported throughout the specification and by the original claims. No new matter has been added, and no excess claim fee is due.

The Examiner's attention is drawn to the fact that submitted herewith is a complete certified translation of the original Korean patent application. The attached Replacement Specification was prepared from the certified translation and no new matter has been added.

Conclusion

Applicant believes the claims are patentable over the prior art, and that this case is in condition for allowance of all claims therein. Such action is thus respectfully requested. If the Examiner disagrees, or believes for any other reason that direct contact with Applicant's attorney would advance the prosecution of the case to finality, he is invited to telephone the undersigned at the number given below.

"Recognizing that Internet communications are not secured, I hereby authorize the PTO to communicate with me concerning any subject matter of this application by electronic mail. I understand that a copy of these communications will be made of record in the application file."

Respectfully submitted,
